Universal Robots UR10e Robotiq Hand-E Servo Gripper

The FC04 is an extremely flexible collaborative robotic system that can tend to the simple and repetitive tasks of loading and unloading parts from your CNC equipment. By automating the tending, you free your highly-trained machinists to apply their skills to more advanced tasks such as setting-up for the next job in another machine, CNC programming, and parts inspection.

More Spindle Hours at Lower Costs

Utilizing the FC04 for efficient, reliable, uninterrupted machine tending throughout the day and into the off-shifts (lights-out) enhances the ROI on your CNC equipment.

Quick Payback Period

The FC04 is your most reliable and tireless machine tender. The breakeven for this investment can be realized in as little as 6 months depending on the number of shifts you run annually.

A Collaborative System

The cobot allows you to automate safely without tying up money and valuable floorspace that is required by conventional robotic machine tending solutions.

Reduce Machinist Fatigue

Less machinist fatigue and safer because the FC04 is taking care of the repetitive motion of opening & closing machine doors and loading & unloading parts.

INCLUDES DELIVERY, INSTALLATION, AND TRAINING

Everything is included in the price: we will deliver with our truck within 100 miles of Fusion, handle the required installation, and the on-site training

QUICK DELIVERY

Our promise is to personally deliver our standard configurations within 15 business days of order

CUSTOM END-EFFECTORS

Easily swap out gripper fingers and entire end-effectors as your jobs change

REMOTE SUPPORT

After installation Fusion provides 10 hours of remote support

CONTINUOUS OPERATION

Designed for "lights-out" operation

EQUIPMENT SPECIFICATIONS

The details below define the standard FC04 unit. Additional options, customized features, and safety devices can be added if your application requires.

Features

- Universal Robots' UR10e cobot
- Heavy-duty Steel Base
- Robotiq 2-finger Parallel Servo Gripper with three (3) Sets of Interchangeable Fingers
- Pendant Armor for the Teach Pendant
- One (1) year warranty includes parts & labor
- Ten (10) hours of remote support

Machine Details

- Cobot Maximum Reach: 51.20"
- Cobot Payload Capacity: 20 lbs.
- Gripper Maximum Stroke: 1.97"
- Overall Footprint: 34" wide x 44" long
- Power Requirement: 115 VAC, 15 Amps

Options

- Robotiq Force Copilot
- Dual Robotiq Servo Grippers
- Programmable Air Nozzle
- Custom Nesting
- Custom Gripper Finger Sets
- Threaded-stem Leveling Casters
