

The Future In Motion

The future of **logistics automation** is here

Mobile Industrial Robots (MiR) is a leading manufacturer of collaborative mobile robots (CMR). We are dedicated to developing user-friendly, flexible and safe robots to help companies increase the efficiency of their operations.

Our autonomous robots are a new generation of advanced mobile robots which give you a rapid return on investment, often with a payback period of less than a year.

These unique, collaborative robots are now used by manufacturers in a wide range of industries and sectors to automate their in-house transportation.

As a first mover in the field, we have enjoyed a rapid, worldwide adoption of our unique and innovative robots.

Reap all the benefits

- Install quickly and easily without changing the workplace layout
- Replace fixed conveyor bands with flexible mobile robots
- Diminish the costs and dangers of forklift trucks
- Redeploy workers from pushing a cart to higher-value activities
- Automate material handling and internal logistics
- Enhance production flow and make significant progress
- Increase productivity at reasonable costs
- Solve bottlenecks and minimize non-productive time
- Eliminate dead time between process steps
- Reduce delivery time and improve competitiveness

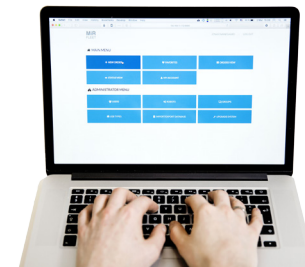

MiR100™ Tech specs

- Payload: 100 kg - 220 lbs
- Precision: 10 mm - 0.39" from reference point
- Max speed: 1.5 m/s - 5 ft/s
- Range: 10 hours or 20 km - 12.5 mi
- Weight: 62.5 kg - 138 lbs
- Battery charging: 0-80%: 2 hours
- Communication: Wi-Fi, Bluetooth, Ethernet and PLC
- Safety: Comply with EN1525 safety regulations, SICK safety lasers, PLd cat. 3
- CE certified

MiRFleet™ Fleet management for optimized robot traffic

- Fast and central configuration of a fleet of robots. Automatic prioritization and selection of the robot which is best suited for a job, based on position and availability.
- Planning of the use of different top modules, hook, and other accessories.
- SMS or e-mail notifications if obstacles prevent the robots from completing the planned jobs.

MiRCharge™ A fully automatic recharging solution

The MiR100 moves and connects autonomously to the charging station.

MiRHook™

Automated in-house transport solutions. Automatic pick-up and drop-off of carts.

Payload:
300 kg
661 lbs

We supply to

Automotive & Aviation

Healthcare & Pharmaceutical

Metal & Plastics

Your Business?

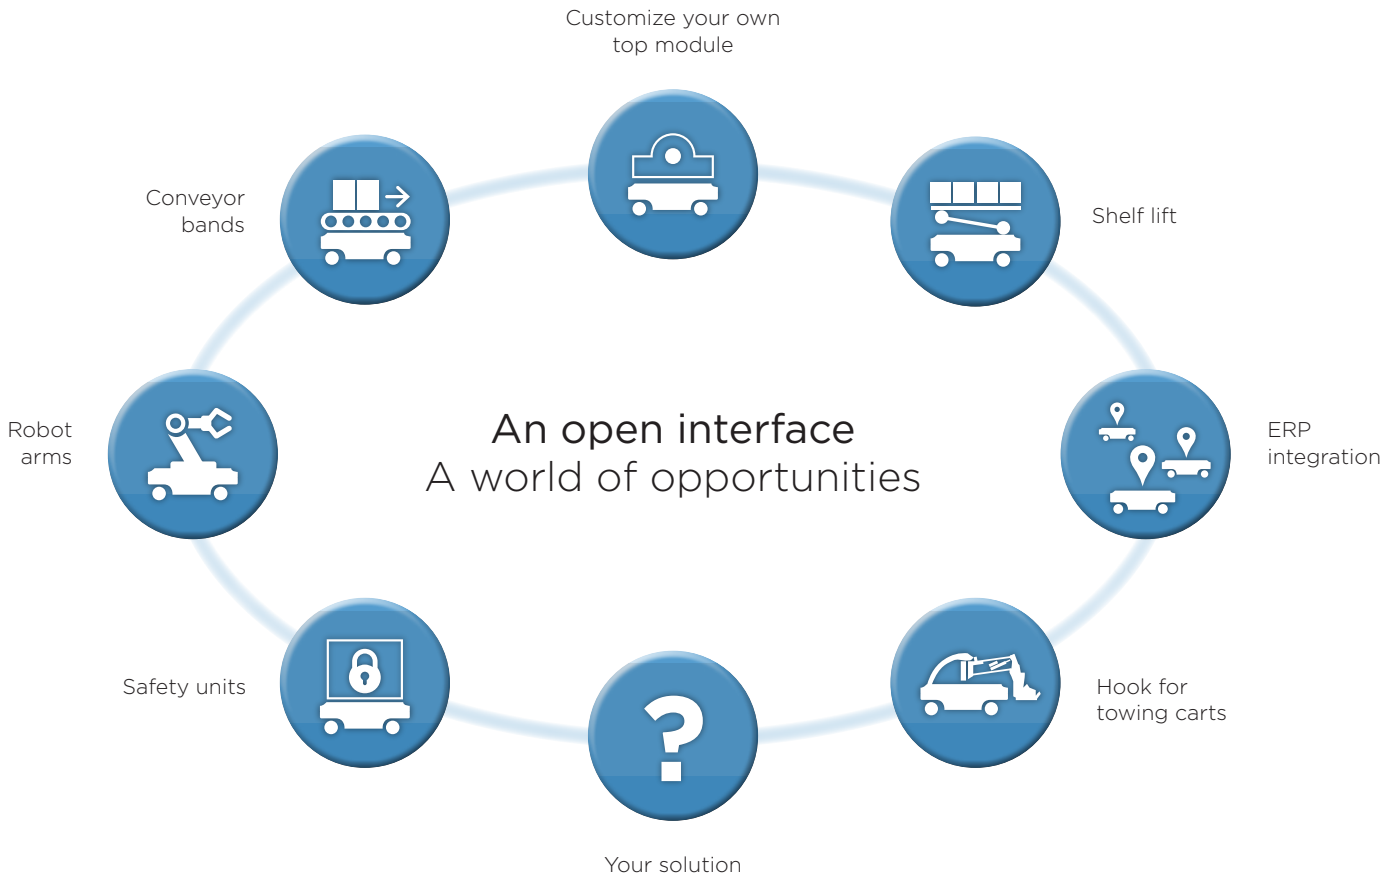

Fashion & Design

Electronics & Technology
